IN PURSUIT OF THE ENDLESS SUMMER

KAILANI SPORTS is an innovative Canadian brand, manufacturing premium products consisting of coolers, drinkware, standup paddle boards and accessories. With additional sporting goods product lines in various stages of development.

Our mission is to build lasting, high-quality, value-oriented products that enhance your experience when spending your time outdoors.

We are an organization that believes in bringing the highest quality products to the consumer, all while delivering exceptional value and customer service to our Retail Partners, Consumers and Brand Ambassadors.

KAILANI COOLERS

We are proud to offer the best value for premium insulated coolers on the market. A combination of insulation performance, freezer-quality sealing gasket, durability and rotomolded construction positions KAILANI coolers as an industry leader.

In addition to our line of hard coolers, we are excited to introduce our more portable, lighter, full line of soft coolers at unprecedented value and performance.

DRINKWARE

DRINKWARE

KILO, HAIKU, MAUNA BOTTLES

These bottles come with an infuser filter, allowing you to supercharge your water with any flavor you like, as well as a retractable straw system.

MOLOKAI LID

The MOLOKAI conversion lid has been designed to transform your 355 ml WAILEA into a leak-proof coffee tumbler. The 480 ml LANAI tumbler already comes with this lid as well as a can insulator lid.

311002

310100

SURE-GRIP HANDLE™

For additional comfort and added grip, we have designed a unique handle that fits both sizes of KAILANI tumblers. To install the handle simply slide it on from the bottom until it fits snug.

311006

OAHU LID

No more spills with our leak-proof tumbler lid made from highly durable BPA-FREE Tritan™ material.

GRIP-TEK™

Ergonomic channels combined with a unique powder-coated treatment result in added comfort and better grip.

KAILANI iSUP

KAILANI inflatable standup paddle boards are constructed from 3LF™ – Triple Layer Fusion laminated military grade PVC. Compared to other single and double-layer boards that are available on the market, this construction allows us to create a board that is both, lighter in weight and also provides added impact protection, and helps to reduce flex, thus increasing it's rigidity. Additional features include dual cargo areas, safety handles, nose and tail grab handles, additional D-Ring mounting points. The package comes complete with board, triple-action pump, fiberglass 3-piece paddle, leash and a premium carrying backpack.

- 1 Ultra-Reinforced Dropstitch**
With increased yarn density, resulting in high-tensile rigid core that can hold pressure of +20psi.
- 2 Airtight Fusion Coating**
Fused to the Dropstitch core during a raw material production process.
- 3 Monocoque Laminate Fusion**
Laminating technology that significantly reduces board weight, and increases rigidity.
- 4 Heat Welded Seam**
Laminated high-pressure, heat welded seam creates a perfect airtight and waterproof seal.
- 5 Top Layer Rail Tape**
Creates final seal, which provides a quadruple layer of reinforcement along the rail.
- 6 EVA Deckpad**
Provides added traction and increased comfort. The Deckpad features a formed kick-pad in the back to assist with control in choppy water.
